

WIDE FORMAT -ANTI-GRAFFITI GLOSS

WIDE FORMAT Anti-graffiti Gloss

- High Gloss finish
- Anti-graffiti properties
- Good UV resistance
- Up to 3 year outdoor product life
- 36mic PET
- UK manufactured
- For Indoor and outdoor applications
- Suitable for flat surfaces

Our range of Polyester based wide format pressure sensitive/ cold lamination films

For indoor and outdoor use

Specifications

BASE FILM	PET Polyester	36 micron +/- 1mic
ADHESIVE	High Coat 36gsm Permanent Clear Acrylic	28 micron +/- 2mic
LINER	70gsm PE Coated Release Liner siliconised 1 side	80 micron +/- 8mic
APPLICATION TEMPERATURE	10°C - 40°C	
STANDARD WIDTHS	1040mm,1300mm,1370mm and 1530mm	Available in 50/100mts reels

12mth Shelf Life

General

Antigrffiti is a clear polyester durable overlaminating film which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The high glue coat weight offers good UV resistance and seals the laminate for outdoor use and direct UV print. The high glossy finish and inert surface gives excellent glossy and durable properties, therefore this product is commonly used for overlamination where a glossy clear anti-graffiti finish is required with medium to long term outdoor properties, up to a maximum of 3 years when used in line with Aquasafe warranty guidelines

A suitable proprietary cleaner such as IPA (Isopropanol) can be used along with a soft cloth in order to remove contaminants such as permanent marker pen and spray paint from the uncoated surface of the film

Recommendation

When using outdoors the sides and any drill or puncture holes made in the laminate should be protected with silicon or wax

Storage

Effort must be made to keep this product free from moisture and excessive exposure to ultra violet radiation before use

Note product may not be compatible with polycarbonate, acrylic or other substances that are known to outgas. Application to these substrates may result in blistering or tunnelling occurring

The above information is indicative only.
The results shown are a general guide to the material properties which are subject to change and do not act as a guarantee.
