APPLICATION TEMPERATURE	10°C - 40°C	
STANDARD WIDTHS	1040mm,1300mm,1370mm and 1530mm	Available in 50/100mts reels

12mth Shelf Life

General

Matt clear PVC is a true matt PVC overlaminating film which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The true matt smooth finish gives excellent anti-glare properties and therefore this product is commonly used for general paper and filmic poster graphic overlamination where a clear true matt and anti-glare finish is required

Storage

Effort must be made to keep this product free from moisture and excessive exposure to ultra violet radiation before use

The above information is indicative only.
