APPLICATION TEMPERATURE	10°C - 40°C	
STANDARD WIDTHS	1040mm,1300mm,1370mm,1530mm	Available in 50/100mts reels

12mth Shelf Life

General

Polymeric LAM Matt is a polymeric PVC overlaminating film which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The true matt finish gives excellent anti-glare properties and this product is commonly used for general paper and filmic poster graphic overlamination where an anti-glare finish is required
