- Rough textured sandtex matt finish
- Offers excellent anti-slip and anti-scratch properties
- Ideal for indoor floor graphic applications
- Excellent light diffusion
- Fire resistant
- 100mic PVC
- UK manufactured
- For Indoor applications
- Suitable for flat surfaces

Our range of PVC based wide format pressure sensitive/ cold lamination films

For indoor use

Specifications

BASE FILM	PVC	100 micron +/- 10mic
ADHESIVE	High Coat Permanent Clear Acrylic	28 micron +/- 2mic
LINER	70gsm PE Coated White Kraft Release Liner siliconised 1 side	80 micron +/- 8mic
APPLICATION TEMPERATURE	10°C - 40°C	
STANDARD WIDTHS	880,1040mm,1300mm,1370mm and 1530mm	Available in 50/100mts reels

12mth Shelf Life

General

Sandtex is a matt clear embossed PVC overlaminating film exhibiting minimal glare which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The rough textured light diffusing finish gives excellent anti-scuff and anti-slip properties and therefore this product is commonly used for floor graphics (industry tested and approved), pop-up displays and general paper and filmic poster graphic overlamination

Recommendation

For short to mid term applications . Radius cut corners recommended when applied as an over lamination film for floor graphics

Performance Data

Slip potential - Low (dry conditions) Standard BS7976-2 Slip potential - Moderate (wet conditions) Standard BS7976-2 R9 DIN51130.2014

Fire test Class 0 BS476 part 6 & 7

Storage

Effort must be made to keep this product free from moisture and excessive exposure to ultra violet radiation before use
