12mth Shelf Life

General

Satin Matt clear PVC is a clear matt lustre PVC overlaminating film which is coated with a permanent acrylic adhesive suitable for overlamination of all ink types including UV inks. The satin smooth finish gives a lustered clear finish and therefore this product is commonly used for general paper and filmic poster graphic overlamination where a clear smooth satin matt finish is required

Storage

Effort must be made to keep this product free from moisture and excessive exposure to ultra violet radiation before use
